NanoStation M

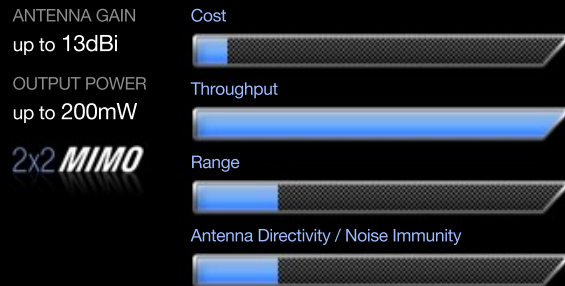

Ubiquiti's most versatile CPE platform.
Featuring secondary ethernet port
with POE output.

NS Loco M

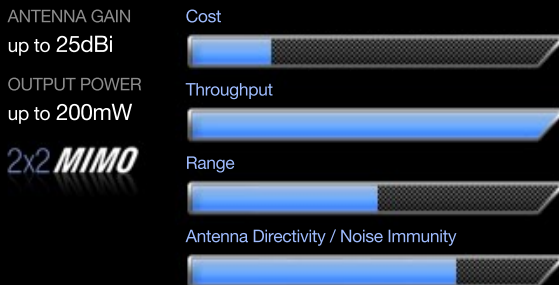

Low Cost, Hi-Performance CPE.
Ideal for short range, hi throughput
links.

NanoBridge M

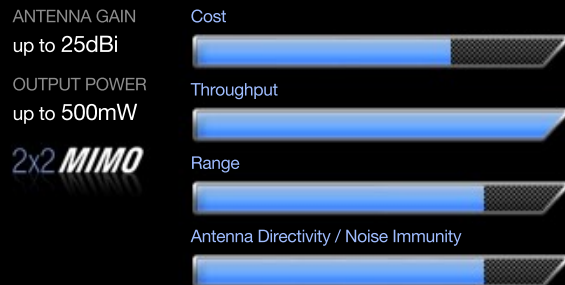

Market leading cost/performance
MIMO bridging solution.

PowerBridge M

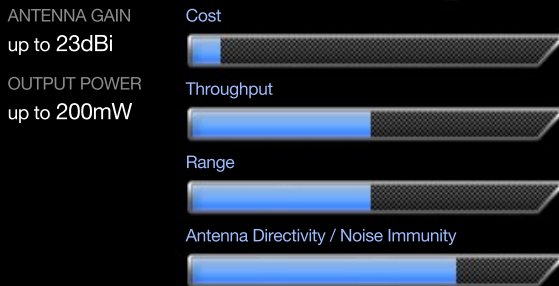

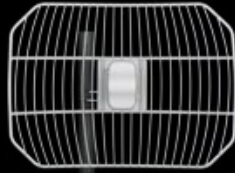

Aesthetic and compact with
outstanding carrier class
performance.

AirGrid M Mid

Low cost with great antenna gain performance. Ideal for client network scalability.

Rocket M + RocketDish

Performance without compromise. The best solution for PtP hi-performance links.

AirGrid M Large

Connects to basestation using tight antenna beam. Excellent CPE for maintaining hi SNR, low-noise connectivity.
